

ANGEL MANUEL CASTAÑEDA URIBE

Bucaramanga, Colombia | manuelkas2022@gmail.com | 315 6046142 | github.com/mk1871

Professional Summary

Software Development Technologist with solid experience in backend, Linux server management (AlmaLinux/Arch), and Python automation.

Specialized in implementing secure and efficient solutions. I have configured perimeter firewalls (Endian) and performed security audits in controlled environments (Kali/Parrot).

I seek to apply my technical skills and passion for cybersecurity to protect and optimize critical infrastructures.

Technical Skills

Systems: Linux (AlmaLinux, Arch, Kali, Parrot)

Security: Endian Firewall, Nmap, Wireshark, Wireless Auditing (Lab)

Languages: Python, Bash, PHP, JavaScript, SQL

Backend: Laravel, Node.js, REST APIs

Data: PostgreSQL, MySQL, Supabase

Automation & Scripting: Selenium, Playwright, Python, Bash

Full Stack: Vue.js, TailwindCSS, Git (Teamwork)

Cloud: AWS S3 (Code-level integration)

Professional Experience

Backend Developer & Automation Specialist (Apprentice Contract), SCALA COLOM- BIA SAS – Remote Sept 2024 – May 2025

- Developed backend solutions with Laravel to consume and process data from external APIs (Twilio, Retell, Synthflow).
- Implemented ETL (Extract, Transform, Load) processes to generate daily reports and logs.
- Automated secure logging and file storage operations in AWS S3.
- Optimized database interactions and collaborated with the data analysis team.

Full Stack Web Developer & Remote Support, Freelance – Remote Jan 2020 – present

- Development of secure web applications (Full Stack) using Supabase, Vue.js, and TailwindCSS.
- Implementation and configuration of perimeter firewalls (Endian) and Linux servers (AlmaLinux) for clients.
- Security auditing of wireless networks and penetration testing in controlled environments (Lab) using Nmap/Kali.
- Creation of automation scripts in Python and Bash for system administration.
- Advanced remote technical support and infrastructure maintenance using tools like RustDesk.

Lead Support & Network Technician, C & S Computadores – Bucaramanga, Colombia Jan 2016 – Dec 2020

- Diagnosed and resolved hardware/software issues in computing equipment.
- Configured basic LAN networks and troubleshoot connectivity issues.
- Led the technological update of internal infrastructure.

Education

SENA, Centro Tecnológico del Mobiliario, Technologist in Software Analysis and Development – Itagüí, Colombia Jul 2025

Certifications

Coursera, Certification in Google Cybersecurity Certificate – Online

In Progress
